

**Basscomm** Nigeria Limited the only systems Integrator partner for Schneider Electric Nigeria is coming to the stage for Part two of their seminar tagged "**Partnership that works**" with Schneider Electric Nigeria.

Following the success of the outing in August 2007 at the Sheraton Hotel & Towers in Lagos [ [Click here to View](#) ], Basscomm and her partners Schneider Electric, promises to offer a power packed seminar in Abuja.

This seminar, slated to hold for the **26th of February** will be showcasing Schneider Electric's product range. These include Solutions for their four core business markets i.e. Industries, Energy and Infrastructure, Buildings and Residential. Their Electrical Power Supply (HV and MV Substations, Power and Distribution transformers); Energy and Infrastructure (Energy distribution networks); Buildings, and Network Management (Distribution Automated System (DAS), Distribution Management System (DMS) and Basscomm's expertise in the installation of these range of products and our outstanding maintenance solutions.

Attracting the Key Consultants and Architects in the Northern Region of Nigeria, the seminar would feature presentations, interactive business discussions and product demonstrations on the selected subject areas which include:-

- **Building Management Systems**
- **Mechanical & Electrical Systems**
